PROFILE

A passionate and driven Computer Science Engineering student with a specialization in Data Science, currently in the 3rd year of BTech. I have hands-on experience in building responsive and user-friendly websites and web applications, focusing on clean design and efficient code. With a strong foundation in data science and programming, I aim to bridge the gap between data and user experience through intuitive front-end development.

SKILLS

□ Front-End Technologies:

HTML5, CSS3, JavaScript, React.js

□ **UI/UX Design:** Responsive Design, Wireframing, Figma, Bootstrap

□ Frameworks/Libraries:

React, jQuery, Sass

□ **Version Control:** Git, GitHub

□ **Data Science Tools:** Python, Pandas, NumPy.

STRENGTH

Creating visually appealing, mobile-first designs using modern CSS techniques.

Building dynamic and interactive web applications using React.js and JavaScript.

Strong problem-solving abilities backed by knowledge of data science concepts.

EDUCATION

SR Group of Institutions, Jhansi

2022-2026

B-Tech in computer science engineering with specialization in data science

Doon Public School, Gwalior

2020-2022

10+2

PROJECTS

Personal Portfolio Website:

Developed a fully responsive portfolio website showcasing my skills, projects, and blog using HTML, CSS, and JavaScript. Integrated a contact form and a dynamic project gallery.

E-commerce Web App:

Built an e-commerce web app with product listing, filtering options, and a shopping cart.

Travel Website:

Built a responsive and user-friendly travel website that allows users to explore destinations, book trips, and view travel packages.
